Re. Eco Recycling Ltd Honoured with 2024 HURUN Industry Achievement Award – Champion of Sustainable E-waste Management

Eco Recycling Ltd (Ecoreco) is proud to announce that it has been honoured with the **2024 HURUN Industry Achievement Award – Champion of Sustainable E-waste Management**. This prestigious recognition, instituted by **HURUN** under its initiative *“Promoting Entrepreneurship Through Quality Lists and Research”*, underscores our unwavering commitment to sustainability and innovation in e-waste management.

We extend our heartfelt gratitude to **HURUN and its esteemed team** for conferring this honour upon our **Chairman & Managing Director, Shri B K Soni**, a pioneer who introduced the concept of **organized e-waste recycling in India**.

Ecoreco's Commitment to E-waste Management & Circular Economy

Since its inception in **2005**, **Ecoreco** has been at the forefront of sustainable e-waste recycling and has received several prestigious accolades from **FICCI, Lockheed Martin, DST, WRI, CII, Sankalp, Municipalika**, and many more. Our commitment to environmental responsibility was further recognized when **Prime Minister Shri Narendra Modi** acknowledged **Ecoreco and its mobile app, BookMyJunk**, in the **97th episode of Mann Ki Baat** for its contribution to the circular economy.

As **India's first authorized and registered e-waste recycling company**, Ecoreco has consistently introduced **advanced technologies and methodologies** to manage **e-waste and lithium-ion batteries scientifically**.

Expanding Capabilities for a Sustainable Future

Ecoreco remains a **debt-free** company and is now expanding its capabilities by setting up a **state-of-the-art facility for critical minerals recovery from PCBs and black mass**. This initiative will enable the **domestic reuse of essential minerals** by electronic device manufacturers in India.

Urban mining for critical minerals not only **reduces the strain on the country's limited natural resources** but also **lowers dependency on imports**, resulting in significant **foreign exchange savings**. These efforts directly support the **Government of India's Circular Economy Mission** and contribute to the nation's vision of **sustainable resource management**.

A Proud Milestone in Our Journey

Receiving the **HURUN Industry Achievement Award** is yet another milestone in Ecoreco's journey toward creating a **greener, more sustainable India**. We remain committed to **advancing e-waste recycling technologies** and playing a pivotal role in the country's **transition toward a circular economy**.
